

## OnDemand - Webinar

Have you ever woken up in a panic the night before an examination wondering if the bank will maintain its compliance rating and board expectations? Do you ever feel like you are unsure whether or not you are using your time and resources effectively? If you have ever experienced either of these situations, this webinar is for you!

This webinar is designed to show compliance officers how to develop an effective and efficient compliance program and ensure no loss of sleep wondering "what if." It will cover common situations a Compliance Officer may deal with on a day-to-day basis when managing a compliance program. Unlike most webinars, this webinar will focus less on regulatory requirements and more on ensuring they are being met!

Any transmission, retransmission or republishing of the audio portion of the seminar is strictly prohibited. Your registration entitles you to ONE connection at ONE physical location along with permission to make copies of seminar materials for all listeners from your institution.
