

NOW HIRING FOR AN Accounting Intern

In this paid, part-time internship, you will learn:

- How investment, debt and derivative trades are transacted by entering these transactions into our accounting systems. This will include reviewing non-standard derivative contracts, confirmations, rate information and prospectuses.
- Interest rate indexes and how investment, debt and derivatives use these indexes for interest settlements and accruals. This will include entering the rates in the system, preparing and analyzing interest accruals and settlements based off trade terms.
- The importance of SOx controls and have the understanding and ability to carry out applicable key controls while performing tasks.
- How to assist with preparations for the cessation of the London Interbank Offered Rate (LIBOR), including the restriking of derivatives trades indexed to LIBOR.

What qualifications are needed?

- Completion of at least sophomore year of college toward an undergraduate degree in accounting
- Knowledge of the banking and thrift industry preferred
- Effective verbal and written communication skills
- Knowledge and proficient use of MS Office applications including Word, Access and Excel
