10:15 a.m. - 10:30 a.m.	Refreshment Break
10:30 a.m. - 11:30 a.m.	From Black Box to Business Trust: Making AI Explainable in Risk Management– Sri Tirunellayi, Abrigo As artificial intelligence becomes a core part of risk management systems, from credit decisioning to fraud detection and AML, explainability is no longer optional. It is foundational to building business and regulatory trust. This session will focus on how financial institutions can operationalize transparency across predictive and generative AI models. Attendees will learn practical methods to surface key model drivers, convert technical outputs into plain language, and embed explainability directly into analyst and investigator workflows. The session will also cover auditability and documentation practices that support compliance and internal governance.
11:30 a.m. - 12:30 p.m.	Lunch in Showcase
12:30 p.m. - 1:00 p.m.	Dessert & Awarding of Exhibitor Prizes in Showcase

1:00 p.m. – 2:00 p.m.

**How to Strengthen Your Identity & Access Management –
Cal Roberson, Integris**

Discover the crucial security measures community banks should establish before implementing Identity and Access Management (IAM). This presentation will provide insights into data protection, employee training, and network security, creating a strong security foundation. Attendees will gain practical knowledge to fortify their bank's defenses, ensuring a more secure environment before delving into IAM strategies. Join us for this essential session to safeguard your bank's assets and customer data effectively.

2:00 p.m. – 3:00 p.m.

**Top 10 Cyber Threats/Cyber & Third-Party Risk –
Brandon Gettert, Curated Cyber**

Cyber threats continue to evolve—and your banks's exposure often extends beyond your own walls. This session explores the top cyber threats facing individuals and organizations today, including Artificial Intelligence, Social Engineering, Third-Party Exposure, Remote Working, Configuration Mistakes, Poor Cyber Hygiene, Cloud Vulnerabilities, Mobile Device Risks, Internet of Things (IoT) weaknesses, Ransomware, and Poor Data Management or Post-Attack Procedures.

3:00 p.m.
